ayush16373@gmail.com • 8827531757 • LinkedIn • GitHub

JABALPUR, Madhya Pradesh

SKILLS

Languages: C++, C, JavaScript, SQL

Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS, Vite

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, Render, Cloudinary, Twilio, Razorpay, Nodemailer

Concepts: Computer Networks, Database Management System, Operating Systems, Data Structures and Algorithms, Object-Oriented Programming

EDUCATION

Bachelor of Technology in Computer Science

Expected Graduation: 2026

Jabalpur Engineering College, Jabalpur, Madhya Pradesh

CGPA: 7.6

PROJECTS

QuestionAI - AI-Powered Academic Assistant — MERN Stack , Google Gemini AI

- Engineered a centralized platform for 1000+ students to upload, organize, and access 500+ previous-year question papers across 10+ branches.
- Implemented adaptive text extraction using Gemini Vision OCR, pdf-parse, and the fs module.
- Built a context-aware AI chatbot for personalized academic guidance and generating practice questions.
- **GitHub:** github.com/ayushpoddar16/QuestionAI • **Live Demo:** Question AI

EduSubmit - Educational Submission Platform — MERN Stack

- Built an end-to-end assignment workflow for 50+ teachers and 500+ students, enabling assignment creation, grading, and detailed feedback review through centralized dashboards — reducing manual evaluation effort by 40%.
- Enabled students to submit assignments, track submission history and access grades and feedback.
- Implemented anti-plagiarism by restricting copy-paste, right-click, and shortcuts during submissions.
- **GitHub:** github.com/ayushpoddar16/EduSubmit • **Live Demo:** EduSubmit

EXPERIENCE AND ACTIVITIES

Backend Developer Intern — Zoro Innovation - MERN Stack Development Jul - Sep 2025

- Developed and optimized 10+ RESTful APIs using Node.js, Express.js, and MongoDB, improving back-end response efficiency.
- Integrated Razorpay payment gateway and WhatsApp notifications using Twilio via REST APIs.

Problem Solving & Technical Achievements

- **Problem Solving:** Solved 300+ coding problems on LeetCode and 80+ on Coding Ninjas
- **Technical Skills:** Implemented JWT Authentication, OTP-based email verification (Nodemailer), file uploads (Multer), and payment integration (Razorpay) in production projects.
